

The J-Pod is a new addition to our range of campervan layouts that offers the maximum in flexibility. The design features an easy removable kitchen & storage unit that is fully usable both inside or outside your van.

- **Take it Outside** - put the J-Pod outside & still have a supply of 38 litres of fresh water, 12v, USB & 230v sockets & LPG supply to the hob. Great in hot weather to keep cooking heat & smells out of your van or to keep the van empty for storing expensive or precious gear under lock & key.
- **Loads of Storage** – unlike other removable kitchen units, the J-Pod has plenty of empty cupboard & drawer space for you to store loads of gear. You won't open a cupboard to find it full up with a water carrier & leisure battery!
- **Secure in Travel** – simply bolted in & out directly into threaded fixings on the side of the van interior.
- **Quality Finish** – lightweight willow ply with laminate on both sides, PVC hot glued edge banding, full chrome cupboard locks. We haven't simply opted for the cheap products.
- **Flexible Design** – folding tables, shelves, drawers & more! 12v, USB & 230v sockets both on the J-Pod & in the van.

Standard Conversion Features

- Removable kitchen unit that splits into two;
 - Unit One – CAN stainless steel sink & tap with beech chopping board lid, full 12v & 230v electric connections with 230v double socket, 2 x 12v sockets, 1 x double USB socket, Fiamma Aqua 8 water pump, twin drawers, 12v Dometic Tropicool 21 litre coolbox in floor level cupboard & folding table built to match the swivelled driver's seat.
 - Unit Two – CAN single burner hob with electric sparker & smoke glass lid, fully tested & certificated LPG system with 907 Butane canister, folding table to the side for extra work surface & two storage cupboards.
- 12v & 230v Sargent 155 unit & control panel fixed in van with VW factory fitted 75 amp hr leisure battery & charge relay, 1 x 12v socket, 1 x double USB socket & 1 x 230v double socket mounted in the rear driver's side panel, LED flexible spotlights over both front cab seats & Labcraft LED strip light in rear over kitchen unit. All 230v systems are tested & certificated.

JPod-Live Inside or Outside!

- 38 litre fresh water tank located on van underside, water level gauge & Fiamma 7 litre/min pump within removable sink unit - all fittings drinking water quality approved.
- Water outlet & 12v & 230v output points located both inside & outside van.
- All rear internal sides fully insulated with Non Itch recycled plastic bottle insulation & carpet lined with soft trim.
- Floor lined with insulated foam birch ply sandwich board & covered with tough, non slip & stylish commercial grade Polysafe vinyl.
- Tailor made curtains with blackout lining to cover all windows – you choose the curtain fabric!

Optional Conversion Features

Includes – Jerba design elevating roof with removable Ventile cotton canvas, beech slatted roof bed for two adults or children, diesel fired hot blown heating, 100 watt solar panel, bike rack, awning rail, quick erect or airbeam awnings, sunshade, roof rack, side window midge screens and more!

Base Vehicle Specification & Price

All our new Volkswagen T6's are equipped with a Euro 6 2.0 litre diesel engine and the starting price for our campervans is based upon the 102bhp version – we also include as standard the excellent VW factory fitted swivelling front seats, the VW second leisure battery with charge relay and the upgraded Simora seat fabric. The T6 also includes Bluetooth mobile connectivity, digital radio with colour touchscreen and full Blue Motion Technology.

When placing an order with us we will help you through the Volkswagen factory options list, where you can choose from a wide range of items – from larger bhp engines, automatic and four wheel drive to rear parking sensors, a power latching slide door, airconditioning and much more!

Our starting price for the J-Pod campervan is £32,450 – this includes VAT, number plates, all Volkswagen delivery charges, our full standard specification and a full tank of fuel! Road tax is the only additional cost at £245.

Why Choose Jerba Campervans?

- Undertaken UK National Small Series Type Approval level safety crash testing
- We are an officially registered body builder and converter for Volkswagen
- Our furniture is individually built by us - we can make layout adjustments to suit you
- Our design & finish has been recognised through winning magazine industry awards
- On your DVLA ownership certificate all our campervans are classified as a Motorcaravan
- ISO9001- we have full accreditation for this international quality standard
- Our workshop is fully open to visitors - we have nothing to hide!

Please note that the J-Pod will only work together with the other leisure services we build into the van – it won't work just on its own!!
